

## See The Transformation

Check out the before and after photos on page two showing how a dated kitchen transformed into this warm modern beauty.

To achieve this look in your home we suggest the following:

- Quantum Quartz Royal Base stone tops with a 60mm mitred drop front
- Matching 20mm stone splash backs
- White 2pac cabinet doors and panels
- Stainless steel 'quad' handles

# Before And After

As you can see from the following photos, by changing the colour scheme and bench tops, the look and mood of this large country kitchen has been completely transformed.

By removing the dated high top and dark laminate bench tops, and replacing the timber veneer doors with white 2pac, the owners have opened up the whole room, lightening it dramatically and making it appear much larger.

The 'after' kitchen has a more welcome 'feel' and better lends itself to entertaining.

The stone splash backs complete the look, adding a touch of class.

More and more of our customers are opting for matching stone splash backs as they create an ultra modern streamlined look which is the latest trend in kitchen design.

For more before and after success stories visit our website [www.mirrorstone.com.au](http://www.mirrorstone.com.au).

## From The Bosses

After a quiet start to the year things are beginning to get back on track.

This month we have focused on injecting a bit of 'fun' into the office to brighten everyone's day. There are a couple of projects in the pipeline including a large painting for the office wall. Stay tuned!

*Until next time*

# Ask Doctor Phill

How do I know if the reconstituted stone I have purchased is genuinely the brand I asked for?

The following tell tale signs will help you identify whether what you are buying is the real thing or a 'fake'.....

The most common indicators to look out for are batch numbers and stamps on the back of slabs. To help protect their customers from purchasing an inferior 'replica' stone, Quantum Quartz and Caesarstone provide online registration for all warranties. You need to enter the colour, batch number and installer (i.e. your stonemason). The stone company then verifies the details by cross matching the batch number to the purchase invoice.

If the stone is not a genuine product it will show up and you will be notified.

Always confirm that you will receive batch numbers and a warranty when your stone is installed.

To completely put your mind at ease, always buy from a reputable stone mason. Here at Mirror Stone we always supply and fit the brand stated on your quote. For more information contact me at the office on 5453 4352.

Phill

## Cleaning Reference Guide

Substance	CaesarStone Cream Cleanser	Methylated Spirits	Spray and Wipe
Red Wine	●		
Beetroot	●		
Coffee / Tea	●		
Cordial	●		
Spices	●		
Food Oils			●
Glue / Silicon / Paint		●	

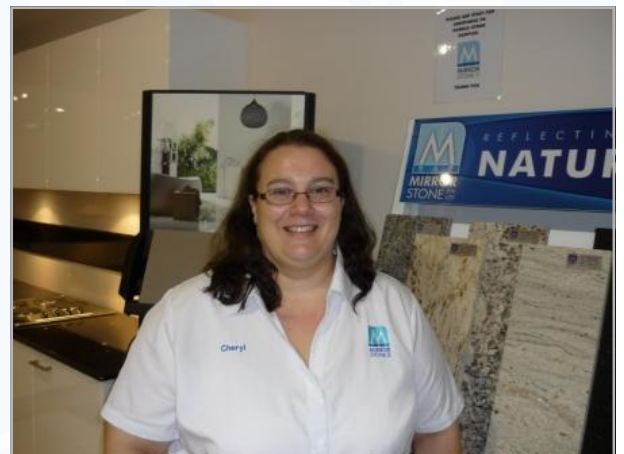

This quick reference cleaning guide was taken from the Caesarstone website [www.caesarstone.com.au](http://www.caesarstone.com.au)

## Meet Cheryl

We would like to introduce you to the newest member of our office staff, Cheryl. Her main role is to assist Phill with his busy workload.

Cheryl joins our team from Perth. She has a passion for history, particularly family history.

Cheryl has a very creative side and enjoys painting, doing scrapbooking and spending time with family. Welcome Cheryl!

Are you on Facebook? If so look us up! Simply go on to the Facebook website if you are a member and enter a search for Mirror Stone Pty Ltd.

We have a fortnightly feature of projects we have completed which gives an insight into how to achieve the featured 'look' as well as giving readers ideas about how to design their dream kitchen.

We also have a regular interactive quiz, a discussion board, and social news as well as Mirror Stone Racing updates.

We would love it if our valued customers could 'Like' our page on Facebook. Our aim is to get as many fans as possible. Don't forget to tell your friends!

## Marketing Event

Phill and Dianne attended a marketing evening recently at Maleny Mountain Wines (The Barrel). Great wine, great food and great company were enjoyed by all.

The Hinterland Connect networking event provided lots of positive interaction with local business owners and representatives.

The Mirror Stone trade stall was a success, with the natural stone samples proving to be a popular addition to the stand.

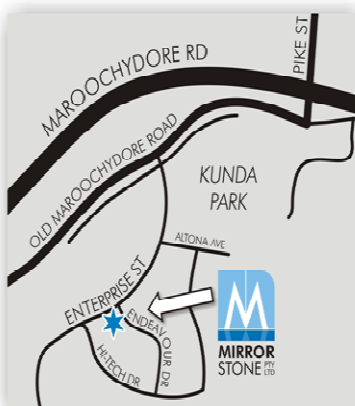

A small group exercise was included in the evening. Attendees were divided into groups of 8 and people from different businesses were paired up and asked to spruik about the other person's business. The person who provided the best advert from the small group was asked to present it to the entire attendance.

Ironically enough the two people who spruiked Mirror Stone for Dianne and Phill won their round so two Mirror Stone ads were presented to everyone in attendance. This exercise was lots of fun and built a great rapport with other small group members and won our spruikers a well-deserved bottle of wine. Thanks

James and Tony, you both did a great job.

Mirror Stone will surely be a face at future Hinterland events.

We now have EFTPOS facilities for your convenience. Contact the office for full details
