Two New Bulcock Revitalisation Projects

RECEIVED
11 FEB 2011

PROJECT UPDATE

The Bulcock Street Streetscape and Esplanade Redevelopment Projects will commence on Monday 7 February 2011, with construction expected to take up to six months.

Council appointed Dig It Landscapes as the Contractor and Projex North as the Superintendent just prior to Christmas.

Bulcock Esplanade Redevelopment

Zone 3 revitalisation works along Bulcock Esplanade will compliment the previously undertaken works constructed in 2009 and early in 2010.

These works will provide a new picnic area and landscaping to the beach side of Bulcock Esplanade, near Otranto Avenue.

Bulcock Street Streetscape Project

Stage 1 includes the frontage of Felicity Park and the old Post Office, down to the roundabout at Otranto Avenue.

The construction works will be staged in sections:
Section 1 – old Post Office and visitor information centre;

Section 2 – Bulcock Street shops;

Section 3 – Felicity Park Area;

Section 4 – Remaining shops and Roadway.

The works will commence with section 1, though 2, 3 and finishing with section 4. See the back of this newsletter for a detailed map.

The main features of the design are shaded seating areas scattered along the street, new pavements, and street furniture.

KEEPING YOU UPDATED

Council will continue to produce regular newsletters updating Bulcock Street traders, residents and property owners of the progress of the works.

Council will also provide an SMS updating service for those interested in receiving regular updates throughout the project, regarding major works and road updates through an SMS message.

If you would like to receive SMS updates, please contact council's Customer Service Centre on 5475 7272.

PROJECT TEAM

The Project team includes Sunshine Coast Council, Dig It Landscapes, Projex North and Place Design. Photos of the team members you will see regularly throughout the construction works are on the back of this newsletter.

A note from your local Councillor

I am delighted that work will be underway in February 2011 to implement two significant upgrade projects. Stage One of the Bulcock Street Streetscape will commence, bringing a fresh look to this busy commercial precinct. At Bulcock Beach Esplanade the Zone 3 upgrade will commence, providing new picnic facilities and planting on the shoreline. Both projects will take up to six months and will bring substantial benefits to traders, tourists and residents. I am sure your patience will be well rewarded.

Cr Tim Dwyer
