Unfinished RotorWay Exec162F kit for sale

- Only the fuel system, electrical/electronics, paint and final fit left.
- Owner has not worked on the helicopter for the last 2-3 years.
- All work to date was inspected by an experienced RotorWay builder.
- All parts that have not been installed are still complete on the parts cards.
- All parts that require treating have either been chromed or powder coated.
- Fiberglass is 95% complete with the final fit and painting still required.
- All the hard work is done, just needs someone with some time and passion to finish the job and GO FLYING.....
