

## **TRAVEL DREAMS**

On moving to the Sunshine Coast 12 months ago I found much to my dismay that there were several plumbing issues in our new home. I was lucky enough to be referred to Plumbers Queensland, who have been in business on the Sunshine Coast for many years.

They did not disappoint! From my first contact with this company I have been delighted. Great receptionist who always answers in a cheery and helpful manner, through to the guys who arrive on the job. I have used this company for all our plumbing requirements as we have had to replace many of the taps and fittings in our 10 year old home.

Plumbers Queensland have experienced employees who explain where the problem lies and offer different solutions. We recently had some peripheral water damage during the severe storms and were more than happy with roof repairs carried out by this company.

In an emergency involving a blocked drain and sewerage outlet they were on site early the following morning. No, I am not joking when I say they even call you if they cannot arrive at a pre-determined time.

I would not hesitate in recommending such a professional and experienced plumbing firm. They are obviously here for the long haul and offer a multitude of services.

*"Thank you Plumbers Queensland. It is a pleasure dealing with you".*
